PROJECTS

Smart Hire

<https://smarthire-96se.onrender.com/SmartHire/>

Developed and deployed a full-stack **Online Job Portal** using **Java, JSP, Servlets, JDBC, MySQL, HTML, CSS, and JavaScript**. The application enables users to register, log in, explore job opportunities, manage companies, and submit job applications. Deployed the application using **Docker, Apache Tomcat, Render**, and **Aiven MySQL cloud database** with secure SSL connectivity.

Hostel Management System

<https://github.com/aayushsharma89/Hostel-Project>

Developed a web-based **Hostel Management System** with technologies **HTML , CSS , JS** with backend **Python (Flask)** along with database **MYSQL** to manage student records, hostel rooms, and administrative operations efficiently. The application provides features for managing student information and hostel-related data through an easy-to-use interface.
